APPLICANT : NEC CORP;

INVENTOR : UEHARA AKIRA;

INT.CL. : H01C 7/00 // H01C 1/14

TITLE : CHIP RESISTOR

ABSTRACT : PURPOSE: To provide a square chip resistor which can increase a power capacity.

CONSTITUTION: Resistance members 2, 2A are arranged and installed on both face parts of an insulating member 1; the resistance members 2, 2A are connected in parallel; terminal members 5, 5A which constitute an input stage and an output stage for the resistance members 2, 2A are provided on the outer circumferential part of the insulating member 1. Thereby, it is possible to provide an excellent chip resistor which can make a circuit board effectively small and which is not available in conventional cases.
